## □ **OBJECTIVE**

Energetic and creative Electronics & Telecommunication Engineering student passionate about frontend development, storytelling, and marketing. Currently exploring the intersection of tech and creativity through personal projects and college leadership roles. Eager to bring my communication skills, tech foundation, and creative spark to a dynamic internship in digital marketing.

## □ **SKILLS**

### **Frontend Development**

- HTML, CSS, JavaScript (Beginner Level)
- Projects: *MoodMuse*, *Calculator*, *Tic Tac Toe*
- Learning via iStopAi platform
- Tools: VS Code, GitHub, DevTools

### **Technical Knowledge**

- Basic MATLAB for electronics and signal processing
- Hardware Projects: Laser Security System, Touch Sensor Switch

### **Communication & Leadership**

- Fluent in English – verbal + written
- Lead at MTech Society – organized events, led teams, hosted sessions
- Winner of multiple inter-college debates

## □ PROJECTS

### **MoodMuse** – *Web Music App*

An emotion-based music player using pure frontend technologies. Showcases UI/UX sense and user interaction logic.

### **Laser Security System & Touch Sensor** – *Mini Projects (SE)*

Blending practical electronics with real-world applications.

### **Calculator & Tic Tac Toe** – *Logic-based Web Apps*

Strengthened understanding of JavaScript functions and DOM manipulation.

## □ INTERESTS

- Public Speaking & Debating
- Creative Writing & Blogging (*Shades of Story*)
- Blending tech with art & feelings
- Exploring digital marketing and user behavior

## □ EDUCATION

### **B.E. in Electronics and Telecommunication Engineering**

Savitribai Phule Pune University (SPPU) | 2027
